A majority of the party in South Mississippi, may fully agree with those two journals, but a voice from the North has thundered aloud in tones too plain to be misunderstood. Ninety-nine out of every hundred of the members of the whig party, are in favor of a ticket-and we say let them have one. It is well known that the whigs, as a party, pretend to be a law abiding people, and that they are in favor of the District System. Well, at the special session of the Legislature, what did they do!
